

SERVICE LETTER

No. 741

Piper Aircraft Corporation

Lock Haven, Pennsylvania, U.S.A.

January 23, 1975

M

Subject:

Radome Weather Seal

Models Affected:

PA-31P Navajo
PA-31T Cheyenne

Serial Numbers Affected:

31P-1 and up;
31T-7400002 and up; required only for aircraft which are
experiencing water leakage in the radome area.

Compliance Time:

At owners/operators discretion.

Purpose:

To provide material and instructions to install a Radome
Weather Seal Kit on the above referenced aircraft. This
modification is designed to preclude water leakage in the
radome area.

Instructions:

Contained in the appropriate Radome Weather Seal Kit (ref.
Material Required, below).

Material Required:

- (1.) For Radomes with one (1) bulkhead; one (1) each per
aircraft Piper Kit no. 760-919, Radar Nose Cone
Sealing - or,
- (2.) For Radomes with two (2) bulkheads, one (1) each per
aircraft Piper Kit no. 760-920, Radar Nose Cone
Sealing.

Availability of Parts:

Your Piper Field Service Facility.

Effectivity Date:

This Service Letter is effective upon receipt.

Summary:

Please contact your Piper Field Service Facility to make
arrangements for compliance with the Service Release
should the subject modification be required for your air-
craft. Modification material is available at no charge
through your Piper Field Service Facility. The "no charge"
provision expires August 31, 1975 after which the above
material will be provided at suggested list price (to be
announced).
